

# Guide to the Issues Clippings Collection 2014 - 2019

My supporters and I have clipped some items which have appeared in the mainstream print media and sometimes in other print media. The articles are mainly about The Protection of Communities and Exploited Persons Act (PCEPA) (initially Bill C-36), the federal law meant to restrict the sex trade. The articles mostly are critical of the PCEPA. The articles are ordered by date. This collection is not comprehensive in any way.

Since items appearing after 2019 have largely repeated the arguments and evidence against the law, and while we have been clipping, there came a point where continuing to digitize and index as we have done below would not be of substantial benefit.

The Web site of the Canadian Alliance for Sex Work Law Reform is an excellent source of detailed information about this law and the constitutional challenge now under way to strike it down.

If you wish to see any of these articles and cannot access them on the Web, please feel free to contact me at [terrijeanbedford @ gmail.com](mailto:terrijeanbedford@gmail.com).
